DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 11 (paragraph [0002]) and 13 (Fig. 4b). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "1" has been used to designate both disk (Fig. 1) and lapping tape (Fig. 9), reference character "5" has been used to designate both arm (Fig. 1) and jig support (Fig. 10), and reference character "7" has been used to designate both voice coil motor (Fig. 1) and reservoir (Fig. 10). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled

Art Unit: 3723

"Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

3. Claims 1-31 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: prior art of record considered as a whole alone or in combination neither anticipates nor renders obvious, a lapping tape inserted between each of a plurality of hard disk drive head sliders and each lapping tapes partially wrap an edge of each slider, in combination with the rest of the limitations in claims 1, 18 and 31.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kobayashi et al '114, '959 and '399 are cited to show method and apparatus for manufacturing head sliders.
6. This application is in condition for allowance except for the following formal matters: objection to the drawings.
7. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
8. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
